## Pulse Welding of Stainless Steel and Carbon Steel Piping for ASME Requirements

Speaker: Wyatt Mann, *Sales Engineer*  
The Lincoln Electric Co., Inc.

This presentation will feature the benefits of pulse welding for carbon and stainless steel pipe, along with typical equipment needed, wires and gases to use, and the necessary ASME requirements. Pulse welding has many benefits including out of position work, and is almost always recommended in cost reductions.

**\*\* Lincoln Electric has donated a NEW VIKING AUTODARKENING  
HELMET that will be raffled off at the January meeting \*\***

Wyatt Mann has worked for Lincoln Electric for 4 1/2 years now and has been participating in the New Jersey AWS chapter for almost 4 years. He has held the Technical Representative position and the Program Chair position as well as being a member of the Executive Committee.

NOTE: This program qualifies for professional development hours.  
One hour will be awarded to attendees

## Chairman's Message

Welcome back after the Holidays!

We start off the new year with an interesting program. The subject for the January 18th meeting will be pulsed welding of piping systems. This program will qualify for professional development hours, so for all persons needing to re-certify, this is a low cost way to accumulate the necessary hours.

It would be very helpful to the NJ Section if all members would pass this information on to nonmembers.

Once again I ask all members of the New Jersey Section to try to find the time to come out to the meetings and participate in our activities. Presently, some 3% of the membership is carrying the entire workload.

The first Professional Development Seminar at the November 16, 2010 meeting was successful and resulted in the best turnout we have had in recent years. Thank you for your support and participation.

James Dolan CPS/CWI, *Dolan Associates*  
AWS NJ Section Chairman

## CWI/CWE Report

Forty people sat for the Certified Welding Inspector/Educator exam on 11/3 in Newark, NJ. Eighteen had attended the Seminar that had been presented during the week prior.

NJ Section thanks to Eric Dolan, Jim Dolan and Al Fleury for serving as proctors.

The next CWI/CWE Seminar will be held October 16-21, 2011 with an exam on October 22nd. The application deadline is September 12, 2011.

Mail AWS NJ Section correspondence to: AWS NJ Section, c/o Jim Dolan, 169 Clover Hill Rd., Millington, NJ 07946

## Member Awards

Each year the American Welding Society acknowledges members who have made significant contributions to the advancement of the art and science of welding, to welding education, to enhancing public awareness and opinion about welding, etc. in their respective fields.

## **Jump in to Action**

The AWS New Jersey Section is looking for a few new people to expand the team of Officers, Executive and Standing Committees.

This is a great opportunity to work with welding industry professionals and see your ideas put into action. You can also gain valuable managerial and leadership experience that will assist in your career.

Nominations for officers for the 2011-12 season are currently being solicited. Members are encouraged to step forward.

If interested, speak with any of the officers at a meeting; or come to the Executive meeting held at 4:30pm on the same day as the regular meeting.

Your input, comments and suggestions for projects and activities are also welcome, so come out to a meeting and share your ideas.

## **Come as You Are**

Please don't be concerned if your clothes or boots aren't clean after working the day of the Section meeting. The AWS knows first-hand that performing welding, cutting and related operations is often a dirty business. You are always welcome to just come as you are to take full advantage of all the benefits.

## **Classifieds**

Classified ads for Help Wanted, Job Wanted, Used Machinery, Equipment or other items for sale, etc. in AWS NJ Section News are free to members, member companies and newsletter Sponsors.
