What to Think About When Considering Welding Automation

Speaker - Seann T. Bradley, The Lincoln Electric Co.

The presentation will discuss what factors are needed to make Welding Automation successful. It will also cover new advances in Robotics Technology and Cell design that make Welding Automation easier to use and understand.

Seann T. Bradley holds a Bachelor of Science in Material Science from Michigan State University, College of Engineering.

For the past 10 years, Seann has worked as a Sales Engineer for The Lincoln Electric Company in the New York District Office. During this time, Seann has covered both the metropolitan New York City and Northern New Jersey markets. Seann has successfully supported and installed over fifteen Welding Automation projects. He has been a AWS member since 1997, and is currently Secretary of the New Jersey Section.
