Flux Cored Welding (FCAW) Fundamentals

Speaker: Wyatt Mann, *Sales Engineer*
The Lincoln Electric Co., Inc.

This program will present the advantages and benefits of using flux cored welding, and ways to increase productivity.

Originally from Mantua, Ohio, a town outside of Cleveland, Wyatt Mann received a BS in Computer Engineering from the University of Akron in 2006. He started his career in welding with The Lincoln Electric Company in June, 2006, and has been a Sales Engineer covering the NYC territory for the past two years.

An active member of the AWS NJ Section, Wyatt currently serves the Section as the Technical Rep and is responsible for maintaining and updating the local library of AWS standards and documents.

He and his wife, Sara, have been married since 2007 and currently reside in northern NJ.

New Gas Cylinder Safety & Storage Brochure

Advanced Specialty Gas Equipment (ASGE), Middlesex, NJ, has released a new "Gas Cylinder Safety Equipment" brochure featuring products that enhance gas cylinder safety with the storage, handling and use of compressed gases. Significant products include gas cylinder storage cabinets, cylinder racks, fire barriers, excess flow valves, flash arrestors, purge assemblies, cylinder wall mount brackets and regulator mounting brackets. The new four-color, tri-fold brochure features a comprehensive line of gas cylinder safety products with full descriptions and high quality images.

"This brochure informs users in various industries how to reduce potential gas cylinder safety incidents and provides best practice solutions when using compressed gases in cylinders," says Glenn Haun, General Manager of ASGE. "All of this safety equipment can be used with gas cylinders found in the automotive, chemical, construction, environmental, food preparation, energy, health care, laboratory, medical, pharmaceutical and Semiconductor markets.

Free copies can be obtained by calling 1-888-999-2743, or download the pdf at: asge-online.com.

ASGE supplies a comprehensive line of gas handling equipment and UOP molecular sieves. Their large inventory includes thousands of regulators, manifolds, flowmeters, valves, adsorbents and accessories and allows them to ship 95% of orders ON THE SAME DAY. In addition to a vast inventory of standard products, ASGE has extensive custom design and manufacturing capabilities to meet special application requirements. The company provides simple, one stop shopping for its customers.
