Chairman's Message

The professional development seminars were quite successful and the plan is to expand and continue this program in the future.

The March meeting will be our Manufacturers Night so plan to attend and meet many of the supporters of the New Jersey Section. It is also an opportunity to observe first hand new products and new technology.

The May meeting is student recognition night, to be held at Somerset County Vo-Tech, this is an excellent opportunity for prospective employers to interact with the students and their instructors and also to screen prospective employees. This is also the time to offer comments on the welding programs and any improvements you may desire to see implemented.

We are looking forward to seeing you at both of these worthwhile events.

Saturday, April 2, 2011 is the date for the Skills USA contest, to be held at Somerset County Voc-Tech. We are looking for volunteers to supervise and also to judge the test pieces submitted. Whether you can be there for the entire event, or for just a few hours, your participation would be very helpful. Contact myself 908-304-2605, or Mr. George Sheehan 848-219-3305. .
